

## **Expect the unexpected -Manage the unexpected**

**Sibos Vienna / 15-19 September 2008**

Whether you are a local champion, a strong regional player or a truly global bank, now is the time for a close look at your payments operation and a realignment of the payment silos that have emerged over the years. Offering reliable payment services at the right price remains key, and is core to reciprocal client relationships at any bank or service provider.

That being the case, technology and, more importantly, the right people in terms of expertise, attitude and skill to '**manage the unexpected**', can make the difference in this time of change. At Clear2Pay we have over 400 professionals who are fully dedicated to payments technology, its global challenges and its regional solutions.

Furthermore, we have implemented our fully SOA-based Open Payment Framework (OPF), and the many products derived from that platform, around the globe to meet business demands ranging from international payments, SEPA Direct Debit and Credit Transfers, imaged check processing, remittance, connectivity to the CNAPS environment, etc. At Sibos, we will demo these along with our Integri end-to-end testing tools, eBanking and card management solutions at booth **C619**.

We would be delighted to meet with you in person in Vienna, and we kindly invite you to book a meeting with us in advance so we can ensure that the right expert is available in view of your particular interest. Please [email](#) us with your availability and requirements, and we will be in touch within one working day.

**In the meantime, we wish you a good and relaxing summer  
and look forward to meeting you at Sibos,**

**The Clear2Pay Sibos team**
